

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## ALASKA.

Passed Asst. Surg. Krulish reports, October 1, the occurrence of poliomyelitis (infantile paralysis) among the Eskimo of St. Michael and Unalakleet, Alaska. At St. Michael there were 5 cases with 1 death. These cases all occurred in the same week. The history of these cases as given by the parents was that the child had been entirely well previous to the attack, the onset was sudden, with vomiting, headache, acute pain along the spine, and slight fever; paralysis of the flaccid type followed. At Unalakleet there were 10 cases with 2 deaths. The village of Unalakleet is 45 miles from St. Michael, and the natives are in constant communication. It appears from the history of the cases that the disease appeared at Unalakleet at least a week before its appearance in St. Michael. The onset and symptoms of the cases were similar in both localities.

## TETANUS.

**CASES AND DEATHS REPORTED BY CITY HEALTH AUTHORITIES
